The Lavenders—are everywhere conceded to be one of the very first of the Sittyton tribes. Their origin is the same as that of the Lancasters from which Mr. Pickrel's great bull, Imp. Baron Booth of Lancaster, was bred; and many of the most valuable cattle ever brought out from Scotland have borne the Lavender name. Probably the greatest cow ever owned by Col. Harris at Linwood was Imp. Lavender 36th of this same family. One of the greatest champion show bulls of England in recent years is Count Lavender, the property of Deane Willis. As a class, the Lavenders are distinguished for their finish, flesh, and quality.

Imp. Mary Ann of Lancaster 7th—was bred by N. Reid, Danesdown, near Aberdeen, Scotland. Lancaster 16th was bought by Mr. Cruickshank at the Wilkinson sale in 1854. She was in calf at the time and in April, 1862, gave birth to triplets—three heifers, two of which, Anne of Lancaster and Mary of Lancaster, won prizes at Keslo as yearlings. Mary of Lancaster subsequently became the dam of Imp. Baron Booth of Lancaster, the great show and breeding bull owned by J. H. Cruickshank's Orange Blossoms—are descended from Jessie by Sovereign. This family is from the same foundation as the Queen of Beauty's coming through Queen of Scotland (a daughter of Edith Fairfax by Sir Thomas Fairfax (5796) whose daughter Queen of the South was one of the greatest cows of her day in all Scotland). Mr. Marr's great bull, William of Orange, was of this noted Orange Blossom family, as was also the prize winner Imp. Orange Blossom 18th, sold in 1876 for \$3500, and considered almost a model of perfection. She had much to do with bringing the Scotch cattle into the popular favor they now enjoy.

Imp. Young Phyllis—a roan, calved in 1831; bred by the Earl of Carlisle, Yorkshire, England; imported in 1834 at a cost of \$1,500. She was a great show cow in her day and never failed to win first prize but once and then she received second. She had a rich roan color with neat head and small horns, with neat neck and fine shape and style, although she died young, leaving but three or four calves, the produce from them have been very prolific and so uniformly good that her descendants are now found recorded in the herd books by the thousands and are highly regarded by the best breeders in the land.
